

Thinking of starting Aikido?

In our 4-week Beginner Session for teens and adults, you will learn:

- How to stretch properly and strengthen your core muscles to practice safely and promote good posture.
- Stances and body movements common to many techniques.
- Basic backward and forward rolls.
- Ways to interact safely with partners on the mat.

Our intention is to make you feel ready to practice safely in Basic Aikido classes. Please be patient with yourself to learn at a pace that is appropriate for you.

Who Can Practice?

We welcome teens and adults of any race, ethnicity, age, gender identity and sexual orientation. **We require proof of having completed the COVID Vaccine process.**

If you have any injuries or disabilities, talk with one of the instructors to see if the beginner class will work for you. Often, we can adapt activities and help you pace yourself.

All our instructors are highly skilled with many years of practice. We look forward to helping you start on your Aikido path.

The Japanese word for Ai Ki Do is written in three characters which translate to Harmony (Ai), Energy (Ki) & the Way (Do). Aikido is not just a martial art, it is a Way of Living in Peace with yourself and your community. It is the only effective method of self defense that does not use violent actions to prevent or stop violence.

We are a 501(c)(3) federal non-profit organization whose mission is to help individuals on their path of well-being of mind, body and spirit through the practice of the Japanese martial arts of Aikido, Iaido and Karatedo to peacefully engage with conflict.
